## STUCCO CURE

### DESCRIPTION

A single pack waterborne, reactive curing compound for cured, dry concrete surfaces.  
Is water white in colour.

### PURPOSE

To penetrate the concrete surface through the microscopic pores and initiates a reaction that increase the density of the concrete, improving it's strength and binds the surface making it dust free.  
Also, improperly placed or finished concrete floor slabs that have pervious and soft surfaces can be improved by application of the STUCCO CURE, increasing the density of the dusty surface.

### APPLICATION

Roller brush, paint brush or spraying.

### TECHNICAL DATA

Type: Waterborne  
Spread Rate: 10m<sup>2</sup> to 20m<sup>2</sup> per liter per coat depending on the surface porosity  
Density: 1,001g/cc  
Packaging: 5L and 25L plastic containers  
Shelf Life: 24 Months in a cool, dry place

### WARNING

Do not ingest. Keep away from children and pets. Do not empty into drains.

### PRECAUTIONS

Wear rubber gloves.  
In the event of contact with eyes or skin, rinse thoroughly with cold water.  
If irritation or discomfort occurs, seek medical advice.
