STUCCO FLOOR REPAIR KIT

DESCRIPTION

STUCCO FLOOR REPAIR KIT is a two-component polymer-modified cementitious product. One component consists of a 20kg bag of a cement mortar powder mix and the second component is 3.6lt STUCCO FLOORMIX.

PURPOSE

The purpose of the STUCCO FLOOR REPAIR KIT is to level and smooth out uneven floors and to fill up floor cavities. STUCCO FLOOR REPAIR KIT can also be used over tiles.

The product can be applied from 3mm up to 10mm thick and has excellent selflevelling properties.

Should a thickness of more than 6mm be required, a second layer of STUCCO FLOOR REPAIR KIT can be applied to obtain the required thickness.

APPLICATION

Preparation

Make sure the floor is dust, dirt and oil free.

Degrease the floor if necessary using a floor degreaser.

Make sure the floor is dry, remove all loose particles, and grind the floor to remove any protrusions and to obtain a sound bonding surface.

When working over tiles, first seal off the grout lines using STUCCO FLOOR SEALER and allow to dry, to prevent uneven absorption of the product.

Mixing

Decant the full contents of the STUCCO FLOORMIX into a suitable container and gradually add the powder, while continuously mixing. The product will have a runny consistency.

Continue mixing the product during application, to prevent the product from settling.

Application

Pour the contents of the mixing bowl onto the floor in longitudinal beads and spread it with a steel trowel to a thickness of 2–3mm, filling all indentations and smooth the floor out.

Should depressions be more than 30mm, 6mm stone may be added to the mixture to a ratio of about 40% by volume of the total mixture, whereby it can be cast in one single casting.

TECHNICAL DATA

Type:	Polymer modified cement
Drying time:	24 hours
Coverage:	5 – 6m ² per bag (one coat, 2-3mm)
Shelf life:	6 months for the cement component, 12 months for the STUCCO FLOORMIX
Packaging:	20kg powder in paper bags 3,6L liquid in plastic bottles
Storage:	Store in a cool, dry place

Stucco Italiano

WARNING

Do not ingest. Keep away from children and pets. Do not empty into drains.

PRECAUTIONS

Wear rubber gloves. In the event of contact with eyes or skin, rinse thoroughly with cold water. If irritation or discomfort occurs, seek medical advice.
