STUCCO FLOOR REPAIR KIT

DESCRIPTION

STUCCO FLOOR SEALER is a clear, two component polyurethane floor sealer.

PURPOSE

The purpose of the STUCCO FLOOR SEALER is to protect and seal cement and concrete.

It presents a hardwearing finish, which enhance the colour of the cement and concrete.

STUCCO FLOOR SEALER is available in a gloss, low sheen or mat finish.

Apply onto Stucco Aquaguard Floor Plaster, Stucco Solido Floor Plaster and Stucco Cementitious Selflevelling or any other sound cement or concrete surface that has been surfaced with Stucco Colour Fastener.

APPLICATION

Necessities

A white hair paintbrush, Poly-pile paint roller, roller bucket, and masking tape and drop sheets.

Preparation

Remove oil or greasy contamination.

Clean and vacuum clean the floor to remove any remaining dust.

Floor must be dry.

Apply masking tape around frames, edges and joints.

Apply Stucco Colour Fastener and allow to dry overnight.

Mixing

Decant the contents of Part B into the Part A container and mix for 3 minutes. Do not shake or vigorously stir the contents.

Application

Apply onto floor surface after Stucco Colour Fastener has been applied the previous day.

Apply immediately after mixing, using a white hair paintbrush and a Poly-pile paint roller.

Apply first coat to cover 8- 10m²per litre for first coat.

Allow to dry for minimum of 18hours before applying second coat directly onto first coat in similar fashion.

Always make sure the substrate is clean, dry and dust free.
